Instructions for
Reversing 444 Base Unit

The 444 Perforated Pull-Out Organizer comes from the factory with
the stainless steel perforated panel on the left side.
Follow the instruction below to switch the panel to the right side.

1. Depress the release lever on all three slides and remove the unit from the base sub-assembly.

2. Remove the product members and rotate them 180 degrees, align them with the edge of the unit and re-attach.

3. Remove AMB's (adjustable mounting brackets) and attach to opposite side of unit.

4. Proceed to 444 installation instructions.
